

$K_p \cdot A_m = 0.09$

Potencia de 347.63 uW

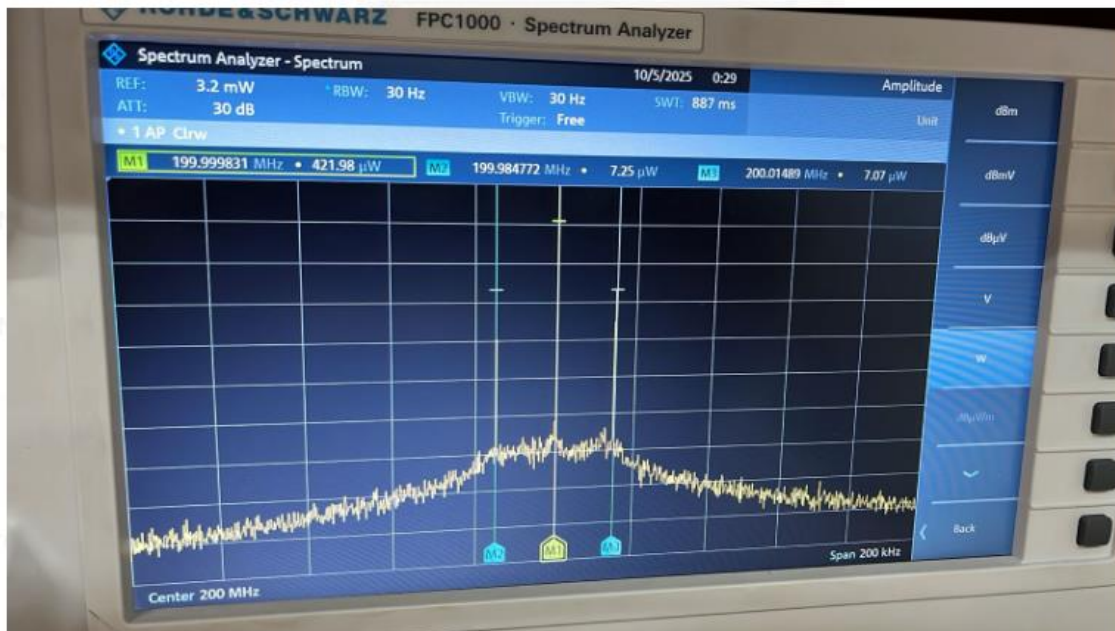

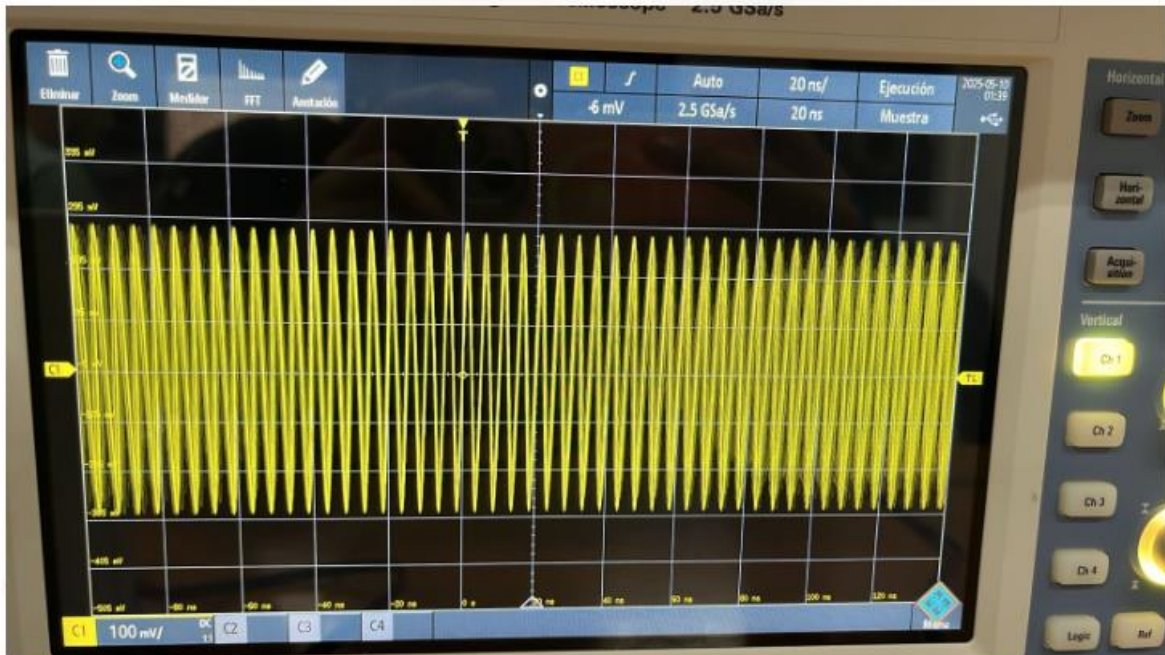

Potencia de 443 uW

$K_p \cdot A_m = 0.05$

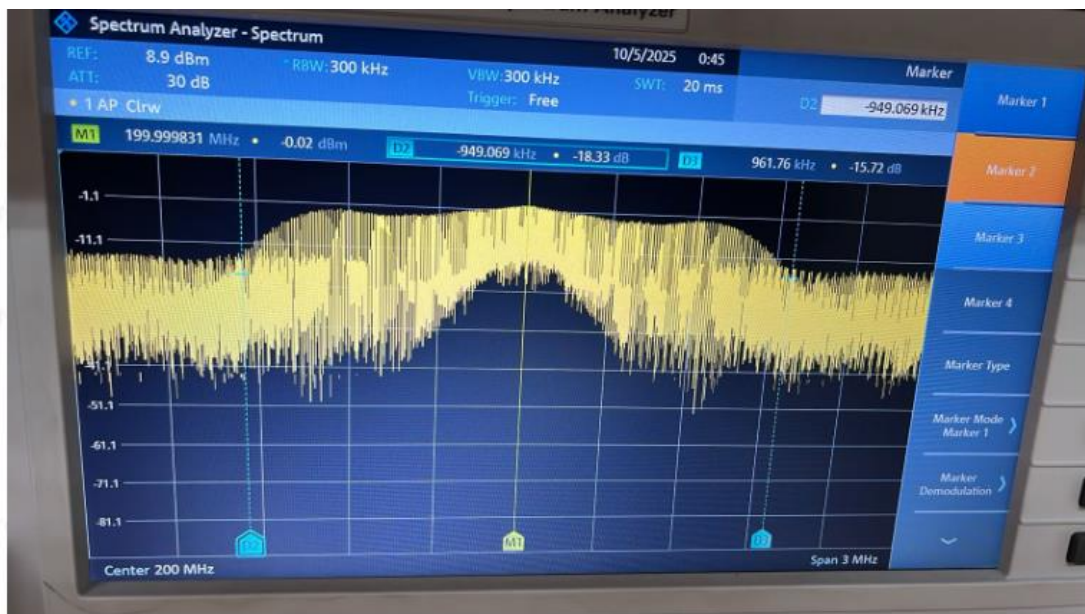

Potencia de 274.7 uW

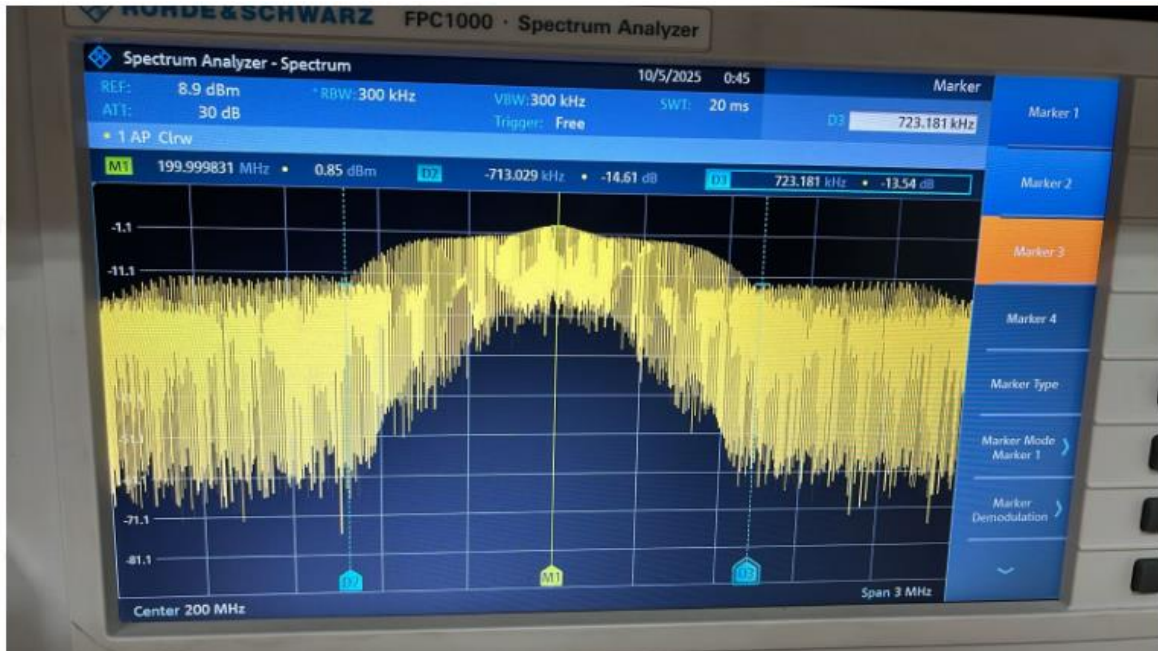

$$K_p \cdot A_m = 43.5$$

Potencia la misma que las anteriores ya que la amplitud no cambia

Ancho de banda de la señal

Ancho de banda de un $K_p \cdot A_m = 28$
